

# **Witham Health Services Community Benefit Report 2020**

Taking Root in the Community Through Outreach Efforts.

# A Message From our CEO

Witham Health Services is pleased to present the 2020 Community Benefit report. One of our fundamental values at Witham is our “commitment to others through service and example”. We remain committed to our community as an organization and individually in our personal contributions. With a long history of important community partners, we believe it is our duty and our obligation to support the health and well-being of all those we serve.

Hospitals today are expected to measure and report their clinical quality, the cost of care, and patient outcome data. Given the high cost of healthcare this increased demand for accountability is easily understood. The call for accountability, one of Witham’s core values, goes beyond measuring cost and quality of patient care and now includes a wide range of hospital activities and services that together are defined as Community Benefit.

Caring for the community and the patients we serve is at the core of Witham Health Service’s mission and values. This year with the COVID pandemic we found this to be even truer. We consider it a great privilege to have such a vital role in the health of both individuals and the community.

We hope this report highlights the many ways that our hospital impacts our community and brings to light the many exceptional employees, physicians and volunteers that give so much to those we serve every day.

## Leadership

**Look how we've grown...**  
we've added 7 new healthcare professionals this year.

## Board of Trustees

John Brand, Chairman  
Margaret McFrye, Vice Chairman
